## There's a Difference with Direct!

Direct Lift is one of several brands that comprise the Vehicle Service Group, a global business and part of the Dover Corporation. The Rotary Lift brand of hoist is another part of the VSG Dover Corp. Dover is a Fortune 500 Company that is publicly traded on the New York Stock Exchange. Vehicle Service Group (VSG) maintains three operation centers including its own ISO-9001 manufacturing facilities in three global regions: Asia, Europe and North America. VSG has been in the business of designing, manufacturing and selling vehicle service lifts since 1925.

Direct Lift products are made in one of Dover Corps own Vehicle Service Group plants. They control the manufacturing of each lift to meet our company's quality standards and is rigorously tested before leaving their factory. In addition to being compliant to the coveted ISO-9001 certification, they have also received numerous European certifications. In North America, their four-post lifts are also ALI/ETL certified.

Direct Lift has sold more than 100,000 car, truck and motorcycle lifts throughout the world to hobbyists, restoration specialists, vehicle technicians and repair shop owners. For extra peace-of-mind, Direct Lift offer a warranty that exceeds industry standards.

Direct Lift stands behind every lift sold with a "6 Point Promise" to each of our customers.

1. Unmatched vehicle lift experience
2. Proven customer confidence in our products
3. Above and beyond levels of quality testing
4. Third party validation of our four-post products
5. Service and support when you need it
6. Their commitment with a strong warranty
