

CARBONCLEAN® DUAL

Complete Fuel System Service for both Gasoline and Diesel Engines

- The CarbonClean Dual services both gasoline and diesel engines to clean the entire fuel system. When used with fuel system cleaning detergents and the Intake Cleaning Kit, CarbonClean Dual cleans the gasoline engine's air plenum, throttle body, air bypass valve, injectors, valves, combustion chambers, oxygen sensor and catalytic converters without having to remove any engine components. When used with diesel detergent, CarbonClean Dual cleans the diesel fuel injectors, injector pump and combustion chambers
- Works on port-fuel, TBI, CIS, and carbureted systems
- Safely dissolves contaminants, gum and varnish deposits, capturing them in the built-in 10 micron filter
- Cleans injector screens, intake and exhaust valves, top of pistons, combustion chamber, oxygen sensor and catalytic converter
- Safely dissolves and removes soft carbon deposits and passes them through the exhaust

MotorVac Detergents Clean From the Inside Out

- Our CarbonClean detergents will loosen and dissolve the resin, gum and varnish that build up throughout an engine's entire fuel system.
- Our cleaning process starts from the air intake, all the way through to the exhaust system.
- CarbonClean detergents use a proprietary formula that combines various elements to form a strong-yet-safe cleaner.
- Our detergents do not contain methanol, isopropanol, hexanol, butanol or ethanol, all known to be corrosive in fuel.
- CarbonClean detergents will not damage the engine components and can be used with confidence.
