

TRANSTECH™ III+

Inline Automatic Transmission Fluid Exchange System

A complete professional inline automatic transmission fluid exchange system that is now even easier to use with our new automatic flow direction technology and our exclusive inline chemical treatment program. The TransTech III+ advanced electronic interface allows complete, “one touch” control. It even has a quick and easy “Drain Pan” function for spill free transmission filter changes during ATF exchange. The TransTech III+ connects through transmission cooler lines and provides a clean, environmentally-friendly and systematic approach to servicing automatic transmissions. The unit will flush virtually all of the old transmission fluid and replace it with the new fluid while controlling the flow automatically with the engine running.

- **Automatic Inline Exchange**
Connect to a transmission cooler line and press one button— walk away until the service is complete
- **Drain Pan Feature**
Allows operator to drain transmission pan for a convenient and mess-free filter change
- **Transmission Cooler Flush Feature**
Allows operator to flush transmission cooler and cooler lines
- **Patented Level Synchronization**
Ensures the transmission cannot be under or overfilled
- **Automatic Bypass**
Ensures that transmission will not run out of fluid during the exchange process

Model	TransTech™ III+
Input	12 VDC 8A
Machine Dimensions	
Height	99 cm (39")
Width	53.3 cm (21")
Depth	43 cm (17")
Carton Dimensions	
Height	104 cm (41")
Width	66 cm (26")
Depth	53 cm (21")
Shipping Weight	39.5 kg (87 lbs)
New Fluid Capacity	24.6 L (26 qt)
Waste Tank Capacity	24.6 L (26 qt)
Length of Power Cord	3 m (10 ft)
Length of Hose	3 m (10 ft)
Warranty	One Year
